

## 2023-2024 Announcement of Opportunity

# HIGHER EDUCATION INCENTIVES

NASA  
WISCONSIN  
SPACE GRANT  
CONSORTIUM

### PURPOSE:

The Wisconsin Space Grant Consortium invites proposals for value-added, higher education teaching/training projects related to any space or aerospace discipline. This is a seed-grant program for faculty-implemented undergraduate education projects which support the most innovative ideas to increase the space and aerospace content of undergraduate university and college offerings.

### PROJECT:

- should have an emphasis on space sciences, aerospace engineering, or any other space-related discipline or interdisciplinary STEM field.
- intended for education and/or training of undergraduate students, with an emphasis on faculty enhancement and curriculum development in undergraduate education.
- align with the NASA Mission Directorates.

### AWARDS:

Multi-Institutional Awards: Up to \$15,000

Major Awards: Up to \$10,000

Minor Awards: Up to \$5,000

*\*Based on availability of funds.*
