UNDERGRADUATE AEROSPACE DESIGN RESEARCH SCHOLARSHIP
@ Milwaukee School of Engineering

PURPOSE:
The Wisconsin Space Grant Consortium (WSGC) is looking for 4-5 full-time students from affiliate member institution majoring in a science or engineering discipline to join the planetary exploration team of our Undergraduate Aerospace Design program. Interested students do not need to have experience, a pre-formed team, or an initial idea for a project. Interested students do need the desire to work with other students to conceive of and carry out a project.

APPLICATIONS OPEN:
Dec. 3, 2022
SUBMISSION DEADLINE:
Feb. 20, 2023
AWARD ANNOUNCEMENTS:
Mar. 31, 2023

UNMANNED AERIAL VEHICLE RESEARCH SCHOLARSHIP
@ Lawrence University

PURPOSE:
The Wisconsin Space Grant Consortium (WSGC) is looking for four (4) full-time undergraduate students from affiliate member institutions majoring in a science, math, or engineering discipline to join the science team of our Unmanned Aerial Vehicle Research Scholarship program. Interested students do not need to have experience, a pre-formed team, or an initial idea for a project. Interested students do need a desire to work with other students to conceive of and carry out a scientific mission using UAVs and remote sensing techniques. Some familiarity with GIS and Remote Sensing will be helpful, but not required. Training for FAA107 certification is provided through the program.

AWARDS:
Undergraduate Aerospace Design Research
Team Member: $4,000 stipend
Team Lead: $5,000 stipend
On-campus housing at MSOE

Unmanned Aerial Vehicle Research
$4,160 stipend
On-campus housing at Lawrence University

*Based on availability of funds.
