**Purpose:**
Provide planning and supplemental grants for new or ongoing projects that contain STEM-related content that supports NASA Mission Directorates.

**Project Goal:**
Foster and enhance a connection between STEM formal and informal education providers to strengthen efforts in recruiting and retaining students in STEM fields. Open to any established organization (e.g. K-12 and higher education schools, aerospace industries, government agencies, non-profit aerospace associations, etc.).

**Awards**: Up to $5,000* per year.

*Based on availability of funds.
